SALES AND CUSTOMER SUPPORT POLICIES

WINDOWS, DOORS AND CUSTOM-MADE PRODUCTS

Company Name: AMERICAN GROUP WINDOWS AND DOORS INC

Address: 5400 NW 84 Ave, Unit C, Doral, Florida 33166

Official Telephone: 813-809-3988 | Official Email: info@doorandoor.com

Effective Period: From the date the customer signs through December 31 of the same calendar year, not to exceed 365 consecutive days. The customer must review and sign these policies again upon the first transaction of each new year. Previously incurred obligations remain in effect.

NOTICE: This document sets forth the general sales and customer support policies of AMERICAN GROUP WINDOWS AND DOORS INC. It must be used together with the applicable estimate, purchase order, or contract. These Policies become part of the agreement when properly incorporated or accepted by the customer. No provision is intended to eliminate, restrict, or waive rights that cannot legally be waived under applicable Florida or federal law.

1. OFFICIAL AND EXCLUSIVE COMMUNICATION CHANNELS — DOOR & DOOR / AMERICAN GROUP WINDOWS AND DOORS INC

IMPORTANT NOTICE: The ONLY authorized official channels are telephone 813-809-3988, email info@doorandoor.com, and the office at 5400 NW 84 Ave, Unit C, Doral, FL 33166.

All matters concerning quotes, orders, payments, changes, claims, warranties, deliveries, or installations must be handled DIRECTLY with the company through these channels. Intermediaries are not recognized as authorized communication or approval channels. Instructions, promises, or modifications made by third parties do not, by themselves, bind the company; any contractual modification requires written confirmation issued from the official email address. This provision does not restrict legally valid communications or liability arising from representatives with legal authority.

THE CUSTOMER ACKNOWLEDGES THAT ALL COMMUNICATIONS WITH THE COMPANY MUST BE MADE DIRECTLY THROUGH THE OFFICIAL CHANNELS LISTED HEREIN. Initials: _____

2. COMMITMENT TO THE CUSTOMER

Our company is committed to providing products and services in accordance with the specifications established and accepted by the customer in the applicable estimate, purchase order, or contract.

Our goal is to support the customer throughout the purchasing, manufacturing, delivery, and installation process, according to the services contracted.

3. ORDER APPROVAL

Before an order is processed, the customer must review and approve the applicable specifications, including, where applicable: model and style; color; measurements; glass type; configuration; swing direction; quantities; accessories; price; installation; and additional services.

The customer’s approval confirms that the stated specifications are correct.

4. DEPOSITS

A mandatory deposit of 50% of the total order amount is required, without commercial exceptions. No order will be processed or submitted for manufacturing until that deposit is received.

Requests for changes or cancellation must be received in writing within 24 consecutive hours after order confirmation and are subject to approval. If the order is submitted for manufacturing earlier, the commercial request period ends at that time. Thereafter, no commercial changes, cancellations, or refunds will be accepted, except for nonwaivable legal rights, including any legally applicable rescission notices and periods.

5. SPECIAL OR CUSTOM-MADE PRODUCTS

Windows, doors, and other products manufactured specifically according to the customer’s measurements, colors, designs, or specifications are considered custom-made products.

6. MEASUREMENTS

When measurements are taken by authorized personnel of our company as part of the contracted service, the company shall be responsible for processing the order according to those measurements and the approved specifications.

When measurements are provided directly by the customer, a contractor, or another third party, the customer shall be responsible for their accuracy, unless otherwise agreed in writing.

7. MANUFACTURING AND DELIVERY TIMES

Manufacturing and delivery times provided to the customer are estimates, unless a guaranteed date is expressly established in writing.

Timelines may be affected by material availability, manufacturers, transportation, weather conditions, inspections, permits, or other circumstances beyond the company's reasonable control. The company will keep the customer informed of material changes of which it becomes aware.

The company shall not be responsible for delays reasonably attributable to manufacturers, distributors, carriers, outside suppliers, or other third parties beyond its reasonable control. Such a delay shall not, by itself, entitle the customer to reject a properly manufactured product or cancel a custom order already submitted for manufacturing, except where applicable law grants a nonwaivable right of cancellation.

8. SUPPORT DURING INSTALLATION

When installation is included in the contract, the company shall perform the work within the agreed scope and address any matter directly related to installation performed by its personnel or authorized contractors, in accordance with the contract terms and applicable warranties.

Any additional work not originally included must be authorized and may result in additional charges.

9. INCORRECT, DAMAGED, OR DEFECTIVE PRODUCT

The customer must provide written notice to info@doorandoor.com of any damage, error, or discrepancy within 24 consecutive hours after discovery, stating the order number, description, and available evidence. This period does not limit warranties or nonwaivable legal rights.

The company will verify the matter and, where appropriate, coordinate with the manufacturer for repair, replacement, parts, or an available resolution under the applicable warranty.

10. WARRANTIES

Products shall be subject to the warranties offered by their respective manufacturers.

Where appropriate, our company will assist the customer with filing and reasonably following up on warranty claims relating to products purchased through us.

Any installation warranties offered directly by our company, if applicable, will be specified in writing in the corresponding contract.

11. CUSTOMER-REQUESTED CHANGES

Any request for modification or cancellation must be submitted in writing within 24 consecutive hours after order confirmation and is subject to company approval. If manufacturing begins earlier, the opportunity for commercial changes or cancellations ends at that time. Legally mandatory rights will be respected.

The company will inform the customer when a change is technically feasible, involves an additional cost, requires a new order, or alters the manufacturing or installation schedule.

No verbal change will automatically modify a previously approved order.

12. CANCELLATIONS

ALL SALES ARE FINAL. Commercial changes or cancellations may be requested in writing only within 24 consecutive hours following confirmation, subject to approval, or before manufacturing begins, whichever occurs first. No commercial returns or refunds are accepted, without prejudice to nonwaivable rights.

13. OUTSTANDING BALANCE

The customer must make payments according to the schedule established in the estimate or contract.

From the date of notification that the merchandise is ready for pickup, the customer has 15 consecutive calendar days to pay the balance and collect it. After that period, a one-time late fee equal to 10% of the outstanding balance may be imposed only where lawful and enforceable, together with reasonable storage charges for each individual item, window, or door, according to a rate schedule previously disclosed to and accepted by the customer, subject to applicable legal limits.

OVERDUE BALANCES. Any overdue balance may accrue simple interest at the rate expressly stated in the applicable contract or invoice, not exceeding the maximum rate permitted by Florida law or any other applicable law. Where the general limit established by Chapter 687 of the Florida Statutes applies to obligations of $500,000 or less, the rate shall not exceed the equivalent of eighteen percent (18%) per year in simple interest. No illegal or usurious rate shall be charged.

COLLECTION COSTS. In the event of nonpayment, and to the extent permitted by applicable law, the customer shall be responsible for reasonable costs actually incurred in collecting amounts legally due, including collection expenses, court costs, and reasonable attorneys' fees where there is a contractual or legal basis for recovery. Nothing in this clause authorizes charges prohibited by law or limits the customer's nonwaivable defenses or rights.

14. AFTER-SALES SERVICE

Our commitment to the customer does not end with the sale.

When the customer has a concern relating to the contracted product or installation, the customer may contact our company to request assistance.

The company will review the situation and determine the appropriate resolution according to the contract, applicable warranties, and the particular circumstances of the project.

15. ACCEPTANCE

By approving the estimate, signing the contract, or authorizing the order, the customer acknowledges having reviewed the specifications and accepts the policies regarding sales, manufacturing, delivery, installation, payments, changes, cancellations, and warranties incorporated into the agreement.

16. DEPOSITS AND ORDERS SUBMITTED FOR MANUFACTURING

ALL SALES ARE FINAL. NO COMMERCIAL RETURNS, CHANGES, OR CANCELLATIONS ARE ACCEPTED. Written requests within 24 consecutive hours after confirmation are subject to approval; if production begins earlier, the commercial request period ends at that time. Nonwaivable rights will be respected.

17. PAYMENT DISPUTES AND CHARGEBACKS

The customer must promptly communicate to the company any concern relating to a payment, product, or service so that the company may investigate and seek to resolve the matter.

The filing of a chargeback or payment dispute does not, by itself, modify the parties' contractual obligations.

The company reserves the right to submit to the relevant financial institution documentation relating to the transaction, including contracts, approved estimates, manufacturing orders, proof of delivery, photographs, communications, authorizations, and any other documentation legitimately related to the transaction.

Nothing in this provision limits the rights available to the consumer under applicable law.

18. CUSTOMER UNAVAILABLE FOR INSTALLATION

Once an installation date has been coordinated and confirmed, the customer must provide reasonable access to the property.

If installation cannot be performed for reasons attributable to the customer, including lack of access, absence of the responsible person, obstructed work areas, or conditions that reasonably prevent work from beginning, the installation may be rescheduled.

Where applicable, reasonable rescheduling, mobilization, or storage charges previously established in the contract may apply.

19. CUSTOMER REFUSAL TO ALLOW INSTALLATION

If the products have been properly manufactured according to the approved specifications and the customer subsequently refuses without justification to allow the contracted installation, that refusal shall not automatically cancel previously assumed obligations.

The company will document the situation and may exercise the rights and remedies available under the contract and applicable law.

20. PERMITS

GOVERNMENT PERMITS AND APPROVALS. Responsibility for obtaining and paying for permits, government approvals, engineering, plans, Notices of Commencement, or other administrative requirements shall be as expressly stated in the estimate or contract. Where the contract assigns those matters to the customer or property owner, they shall be the customer's responsibility. Where the contract expressly states that AMERICAN GROUP WINDOWS AND DOORS INC is responsible for handling them, the company shall undertake the corresponding procedures before the competent authority.

Permit approval times depend on government authorities and are beyond the company's control.

Delays caused by reviews, corrections, additional requests, inspections, or government procedures may change the project's estimated schedule.

Fees for permits, engineering, plans, Notices of Commencement, or other administrative requirements are included only when expressly stated in the contract.

21. INSPECTIONS

When the project requires government inspections, the customer must provide reasonable access to the property on the necessary dates.

The company will coordinate inspections that fall within its contractual obligations.

If an inspection must be repeated due to a preexisting condition of the property, changes made by third parties, or any situation outside the original scope of work, the corresponding additional costs will be evaluated and communicated to the customer before additional work is performed, where reasonably possible.

22. HOA AND PROPERTY OWNERS' ASSOCIATIONS

Unless the contract expressly provides otherwise, the property owner shall be responsible for obtaining any required approvals from a Homeowners Association (HOA), condominium association, or other private entity with authority over exterior modifications to the property.

The company may reasonably provide available technical documents relating to the products.

Approval of a government permit does not constitute HOA approval, and vice versa.

23. HIDDEN OR PREEXISTING CONDITIONS

Prices are calculated taking into account conditions reasonably visible when the estimate is prepared.

During removal of doors, windows, or other components, previously hidden conditions may be discovered, including deteriorated wood, structural damage, preexisting moisture or leaks, corrosion, defective prior installations, unauthorized modifications, damage caused by termites or other pests, electrical or plumbing issues, deteriorated stucco, concrete, structural elements, or other materials.

The company will notify the customer when it discovers a condition that reasonably requires additional work.

Work outside the original scope must be documented through a change order or additional authorization, unless immediate action is reasonably necessary to protect the property or meet safety requirements.

24. ADDITIONAL WORK AND CHANGE ORDERS

Any work not expressly included in the original contract shall be considered additional work.

Before performing additional work involving a significant cost, the company will seek to obtain the customer's written authorization through a Change Order.

A Change Order may modify the price, scope of work, and estimated project schedule.

25. MANUFACTURER'S WARRANTY

Warranties covering glass, frames, components, hardware, and other products manufactured by third parties shall be subject to the terms and conditions established by the manufacturer.

Where applicable, the company will provide reasonable assistance to the customer in identifying and processing a valid claim with the manufacturer.

The company may not expand, modify, or replace a warranty issued directly by a manufacturer unless it expressly does so in writing.

26. PREEXISTING DAMAGE

Before beginning installation, the company may take photographs or videos of the work area to document existing conditions.

The company shall not be responsible for damage that existed before work began or that was not caused by its employees or contractors during project performance.

27. REMOVAL AND DISPOSAL OF EXISTING PRODUCTS

Removal and disposal of existing doors, windows, frames, glass, or other materials are included only when stated in the contract.

Once removed and discarded within the authorized scope, the company shall have no obligation to retain those materials unless the customer requested their preservation in writing before work began.

28. PROTECTION OF THE WORK AREA

The customer must remove or protect personal belongings, furniture, curtains, blinds, decorations, electronic equipment, and other property near the area where work will be performed.

The company will take reasonable measures to protect the property during installation.

29. ACCESS TO THE PROPERTY

The customer authorizes personnel and contractors duly assigned by the company to enter areas of the property reasonably necessary to perform measurements, deliveries, installation, inspections, repairs, or services included in the contract, with prior coordination where appropriate.

30. ERRORS ATTRIBUTABLE TO THE COMPANY

The customer must report in writing any error attributable to the company within 24 consecutive hours after discovering it, providing the information, photographs, documents, measurements, and reasonable access needed to evaluate and correct it. The customer must cooperate and allow the company a reasonable opportunity and the time technically necessary to remedy the error, while the company acts diligently and provides updates on progress. This notice requirement does not limit rights relating to latent defects or nonwaivable warranties or remedies.

The customer shall not incur additional costs directly arising from a verified error attributable to the company.

31. ERRORS IN INFORMATION PROVIDED BY THE CUSTOMER

When the customer directly provides measurements, specifications, colors, models, swing direction, or other information used to manufacture the product, the customer is responsible for verifying its accuracy before approving the order.

The company shall not be responsible for errors arising exclusively from incorrect information provided and approved by the customer.

32. NO-RETURNS POLICY — ALL SALES ARE FINAL

ALL SALES ARE FINAL. No commercial returns are permitted for doors, windows, stock products, special orders, or custom-made products. Changes or cancellations must be requested in writing within 24 consecutive hours after confirmation and are subject to approval, unless production begins earlier. This policy does not exclude mandatory legal rights, warranties, or remedies for breach or defects.

33. PROJECT DOCUMENTATION

The company may retain contracts, purchase orders, photographs, videos, communications, delivery receipts, permits, inspections, Change Orders, and other project-related documents for its business records, contractual compliance, warranties, and dispute resolution.

34. FINAL BALANCE

The customer is responsible for making payments in accordance with the stages and conditions established in the contract.

The existence of a legitimate warranty claim does not automatically eliminate payment obligations for products or work properly supplied, subject to the rights and remedies granted to the parties under applicable law.

35. RESOLUTION OF CONCERNS

Before filing a formal claim, the customer is encouraged to communicate any concern to the company in writing and provide a reasonable opportunity to inspect the situation and propose a resolution, where appropriate.

This provision is not intended to eliminate or restrict any right that cannot legally be waived.

36. ACCEPTANCE OF THE POLICIES

The customer acknowledges having had an opportunity to review these Policies before authorizing the order and before signing them.

Signing these Policies, or validly accepting them through a contract, estimate, or order that expressly incorporates them, constitutes acceptance of their terms. For each customer, the effective date shall be the date on which that customer signs or validly accepts these Policies, subject to applicable law.

37. FINAL SALE, CUSTOM-MADE PRODUCTS, CANCELLATIONS, AND REFUNDS

The customer acknowledges and agrees that windows, doors, glass panels, frames, components, and other products ordered specifically according to the measurements, designs, colors, configurations, options, or particular specifications of the project are CUSTOM-MADE PRODUCTS.

Once an order for custom-made products has been approved by the customer and submitted to the manufacturer, the sale shall be deemed FINAL to the extent permitted by applicable law.

Because such products are manufactured specifically for the customer’s property and specifications, they may not reasonably be resalable or usable on another project.

A. CANCELLATION BEFORE THE ORDER IS SUBMITTED FOR MANUFACTURING. If the customer requests cancellation in writing before the order is submitted to the manufacturer, the company will review the project status. Any applicable refund may be subject to deductions for costs reasonably incurred and authorized under the contract and applicable law.

B. ORDER SUBMITTED FOR MANUFACTURING. Once a custom order has been submitted to the manufacturer, it may not be canceled, modified, returned, or refunded unless the company and/or manufacturer expressly authorizes the modification or cancellation, or applicable law grants the customer a right that cannot be waived by contract. Where a modification is possible, the customer will be informed of any additional cost and must authorize it before the change is processed.

C. DEPOSITS. Where a deposit has been used or committed to order custom-made products, materials, engineering, permits, or other costs directly related to the project, the corresponding amounts may be deemed NONREFUNDABLE to the extent permitted by law. The company may provide reasonable documentation concerning order status in the event of a dispute relating to the deposit.

D. CUSTOMER CHANGE OF MIND. Once an order has been submitted to the manufacturer, a change of mind concerning color, design, model, configuration, swing direction, style, or any other previously approved specification shall not, by itself, constitute grounds for demanding a refund. If the customer requests that a product be manufactured again because of a subsequent change in preferences, the company will provide the corresponding price before ordering the new product.

E. PROPERLY MANUFACTURED PRODUCTS. A product manufactured according to approved measurements and specifications shall not be considered defective solely because the customer subsequently changes their mind or preferences.

F. DEFECTIVE, DAMAGED, OR INCORRECT PRODUCTS. The FINAL SALE / NO REFUND condition does not eliminate obligations that may arise when the product received does not match the approved order due to an error attributable to the company; there is a defect covered by an applicable warranty; there is damage for which the company is responsible; the company made an error in measurements when measuring was part of the contracted services; or applicable law grants the customer a right or remedy that cannot be restricted by contract. In such circumstances, the company will evaluate the case and provide the appropriate remedy under the contract, warranty, and applicable law, which may include repair, replacement, correction, or another appropriate remedy.

G. REFUSAL TO ACCEPT OR INSTALL THE PRODUCT. The customer’s refusal to accept a properly manufactured product or allow a previously contracted installation shall not automatically constitute cancellation of the order or create an automatic right to a refund. The company may store the product and apply storage or rescheduling charges previously established in the contract and permitted by applicable law.

H. CHARGEBACKS AND PAYMENT DISPUTES. A final-sale policy does not prevent the customer from exercising legitimate rights through their financial institution. However, in the event of a payment dispute, the company may provide the financial institution with documentation relating to the transaction, including the signed contract, approval of specifications, proof of payment, manufacturer’s order, photographs, communications, proof of delivery or installation, and other relevant evidence.

I. SPECIFIC CUSTOMER ACKNOWLEDGMENT. The customer specifically acknowledges having read and understood that custom-made products may become a FINAL SALE once the order is submitted to the manufacturer and that deposits or amounts committed for those products may become NONREFUNDABLE, subject to the contract terms and applicable law.

Customer Initials — FINAL SALE: _____

This provision is not intended to waive, restrict, or eliminate any consumer right that cannot legally be waived.

J. CANCELLATION RIGHTS AND MANDATORY NOTICES

Nothing in this section concerning FINAL SALE, NO REFUND, custom-made products, deposits, cancellations, or refunds shall eliminate or restrict a cancellation right mandated by law. Where a transaction qualifies as a Home Solicitation Sale or another transaction for which Florida or federal law requires a cancellation right or notice, AMERICAN GROUP WINDOWS AND DOORS INC will provide the required notice and honor the applicable cancellation period. In the event of a conflict, any consumer right that cannot legally be waived shall prevail.

LEGAL NOTICES FOR RESIDENTIAL CONTRACTS

Where required by the nature and amount of the project, the principal contract must include the mandatory notices required by Florida law, including the Construction Lien Law notice for direct residential contracts subject to that requirement. These Policies do not replace any notice that the law requires to appear on the first page of the contract, on a separate signed and dated page, or in a specified format and font size.

38. ADDITIONAL COMMERCIAL TERMS AND ACKNOWLEDGMENT

The customer acknowledges having read and understood, before signing, the applicable provisions concerning final sales, special and custom orders, authorized returns, restocking charges, delivery charges, third-party delays, permits and approvals, overdue balances, and collection costs. Acceptance of these terms is at all times subject to rights and remedies that cannot be waived under applicable law.
